Start with Apple's own free material

Develop in Swift Tutorials

Apple's step-by-step beginner course. The best first stop.

developer.apple.com

Apple Developer Pathway

Orientation for newcomers: accounts, tools and what comes next.

developer.apple.com

Swift Pathway

Videos and reading on the language, starting with A Swift Tour.

developer.apple.com

SwiftUI Pathway

From what SwiftUI is through to modelling your data.

developer.apple.com

SwiftUI Tutorials

Build the classic Landmarks app one view at a time.

developer.apple.com

App Dev Training

A longer build of one complete app called Scrumdinger.

developer.apple.com

Keep these open while you work

The Swift language book

The official guide. Read the tour, then use it as reference.

docs.swift.org

Xcode documentation

Projects, previews, debugging, testing and distribution.

developer.apple.com

SwiftUI documentation

Every view and modifier, with sample code.

developer.apple.com

Xcode release notes

What changed and known issues in each version.

developer.apple.com

Human Interface Guidelines

How Apple apps should look and behave.

developer.apple.com

SF Symbols

Thousands of free icons that work in SwiftUI with one line.

developer.apple.com

Developer videos

Every WWDC session, with transcripts and code.

developer.apple.com

Developer Forums

Ask questions. Apple engineers reply here.

developer.apple.com

YouTube channels worth your time

Apple Developer
WWDC sessions and code-alongs straight from the source.

youtube.com/@AppleDeveloper

Sean Allen
Full beginner courses, career advice and Swift news.

youtube.com/@seanallen

Paul Hudson
Hacking with Swift. Fast, friendly and always current.

youtube.com/@twostraws

Swiftful Thinking
SwiftUI Bootcamp. Short videos, one concept each.

youtube.com/@SwiftfulThinking

CodeWithChris
Patient lessons for people who have never programmed.

youtube.com/@CodeWithChris

Stewart Lynch
Careful walk-throughs of SwiftUI, SwiftData and new APIs.

youtube.com/@StewartLynch

Kavsoft
Polished interface builds and animation in SwiftUI.

youtube.com/@Kavsoft

AzamSharp
Architecture, data flow and testing for growing apps.

youtube.com/@azamsharp

Swifty Place
Karin Prater. Strong on macOS apps and layout.

youtube.com/@SwiftyPlace

Books and written courses

The Swift language book

Apple. The definitive guide, always current.

Free · docs.swift.org

100 Days of SwiftUI

Paul Hudson. A daily course that ends with real apps.

Free · hackingwithswift.com

SwiftUI by Example

Paul Hudson. Short answers with code you can paste.

Free · hackingwithswift.com

SwiftUI Apprentice

Kodeco. Builds several complete apps from nothing.

Paid · kodeco.com

iOS 26 Programming for Beginners

Ahmad Sahar. Revised each year for the new Xcode.

Paid · packtpub.com

SwiftUI for Masterminds

J.D. Gauchat. A broad 2026 reference, sixth edition.

Paid · books.apple.com

Hacking with Swift books

Pro Swift, design patterns, testing and more.

Paid · hackingwithswift.com

Thinking in SwiftUI

objc.io. How layout and state really work.

Paid · objc.io

Advanced Swift

objc.io. The deep book on the language.

Paid · objc.io
